DETAILED ACTION

Election/Restrictions

Newly amended claims 13-22, 25, and 54-55 are directed to an invention that is independent or distinct from claims 13-22, 25, and 54-55 examined in the Office Action dated 8-4-2008 for the following reasons:

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- III. Newly amended claims 13-22, 25, and 54-55, drawn to measurement method including augmenting model by changing model in response to new variables.
- IV. Claims 13-22, 25, and 54-55, drawn to measurement method including environmental variable or user behavior variable, as acted upon in the Office Action dated 8-4-2008.

Inventions III and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they do not overlap in scope and are not obvious variants, and if it is shown that at least one subcombination is separately usable. In the instant case, subcombination III has separate utility such as modeling a system in which environmental variables or user behavior variables are not required. See MPEP § 806.05(d).

The examiner has required restriction between subcombinations usable together. Where applicant elects a subcombination and claims thereto are subsequently found allowable, any claim(s) depending from or otherwise requiring all the limitations of the allowable subcombination will be examined for patentability in accordance with 37 CFR

1.104. See MPEP § 821.04(a). Applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 13-22, 25, and 54-55 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Allowable Subject Matter

Claims 23 and 24 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

As indicated in the Office Action dated 4-22-2008.

Response to Arguments

Applicant's arguments with respect to claims 13-22, 25, and 54-55 have been considered but are moot because the claims are withdrawn from consideration.

Conclusion

This application is in condition for allowance except for the following formal matters:

Withdrawn claims 13-22, 25, and 54-55 are present in the application..

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
